REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a backup device in case of power failure in an image recording apparatus. Independent claim 1 identifies the uniquely distinct feature "means for turning the switching means off when the data which have been stored in both the memories immediately before power fails and all the data composing the two blocks to which the data belong have been recorded on the recording medium, to stop the recording operation". The two newly submitted references (JP 55-032265) and (JP 10-177669) disclose the conventional backup device of the recorder, either singularly or in combination, fail to anticipate or render the above underlined limitation obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
